About Conference

ICRAITMS-2020 aims to provide common platform to all the leading academic scientists, researchers and research scholars to exchange and share their experiences and research ideas in the advanced and latest trends in engineering and technologies like Robotics, Power systems, E- Mobility, 3D techniques and other new trends in Mechanical, Civil engineering, Management, Business, Administration, Humanities and Applied Sciences. This conference mainly provides a premier interdisciplinary platform for the researchers, educators and practitioners to present and discuss their authentic and innovative ideas, trends and concerns as well as challenges encountered and solutions adopted in the advanced fields of engineering and technology.

Scope of conference

The ICRAITMS-2020 aims to bring together leading academic scientists, researchers, industrial personnel and research scholars from all over the world under a roof to exchange and share their experiences and research results through brain storming sessions on current trends and latest innovations covering all aspects of Mechanical, Civil Engineering, Management, Business, Administration, Humanities and Applied Sciences. The conference will have keynote address from illustrious speakers and peer-reviewed high quality technical paper presentations.

The main objective of the conference is to build the network of engineering experts of respective research area and to increase the awareness of new trends happening in their field of interest. It provides a platform at the international level to present the innovative ideas in their disciplines.

Note: The authors of the registered paper will be issued E-Certificate from the concern journal and participation E-Certificate as well as Hardcopy of International Certificate and Kit from the conference organizers.

Conference Topics

Perspective authors are invited to submit their unpublished significant research work to the ICRAITMS.

Topics of interest but not limited to:

- Robotics & Artificial Intelligence
- 3D Printing, Nano Technology
- Optimisation techniques
- Applied Mathematics
- English Language Education and Teaching
- Advanced Manufacturing Techniques
- Marketing and Social Media Analytics
- AI (Artificial Intelligence) in Business Decisions
- Laser and Fiber optics
- Dielectric and Magnetic materials
- Renewable Energy
- Advance Irrigation Techniques for Agriculture

Note: The call for papers is not restricted to the above-mentioned list.

PUBLICATION

All accepted papers will be published free of cost in UGC CARE List I journals.

- Shodh Sarita
- South Asian Journal of Evaluation in Practice
- Shodh Sanchar Bulletin
- Int Journal of Gender, Science and Technology
- Kala Sarovar
- Madhya Bharti and many more in the list....

***Selected High quality papers will be published for free of cost in SCOPUS Indexed Journals**
